

OCEAN AUTOMATION SOLUTIONS

Your Automation Solutions Provider

OCEAN AUTOMATION SOLUTIONS are providers of specialist services in the field of control and instrumentation in the marine, offshore and landbased industries. The companies are involved in the design, service, sales, trading, supply, repair, maintenance and upgrade of instrumentation and process control systems. We provide these services throughout the Middle East and Far East and worldwide from our two companies located in Dubai, U.A.E. and Jurong Singapore. Both operations work from fully equipped factories in order to give both customers and our engineers total instrumentation and control equipment repair and engineering support. Ocean Automation Solutions aim to provide a world class service to its customers in the supply of quality products, engineering services and maintain a disciplined and well trained multinational work force. We offer our products and services to clients throughout the Middle East and Far East and are able to deploy our engineers anywhere in the world at short notice

We offer the following services to our customers:-

Design, Supply, Installation & Commissioning Services
 Project Management
 Execution of Turn-key Projects
 System Integration
 New Equipment & Spare Parts Sales
 Systems Engineering
 Third Party Inspection
 Instruments Testing and Calibration
 24-hour Maintenance & Repair Services
 Deployment of engineering manpower to site

SERVICE & REPAIR

We maintain, repair and certify control and instrumentation systems and equipment in any facility that involves process instrumentation in both the Middle East and Far East and across the world. Some of these assignments are planned well in advance, however many are instigated by an urgent phone call from customers who require urgent assistance. This often requires a repair team to be assigned immediately together with all necessary test equipment, tools and spare parts. Due to the urgent nature of these repairs we will supply customers from our inventory of equipment and spare parts held in our Dubai and Singapore stores.

STORES

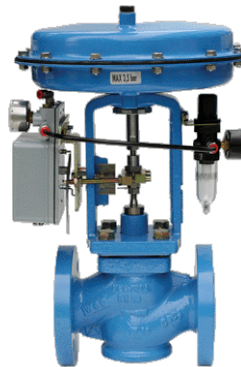

We stock, supply and trade instrumentation, control and measurement equipment. We also act as local agents and distributors for well respected names in the process instrumentation and automation business such as CMR Group (France), Rivertrace Engineering (UK) and Power Genex (Korea), and carry stocks of equipment and spare parts from our principals' product lines. We stock equipment and spare parts for various systems including:-

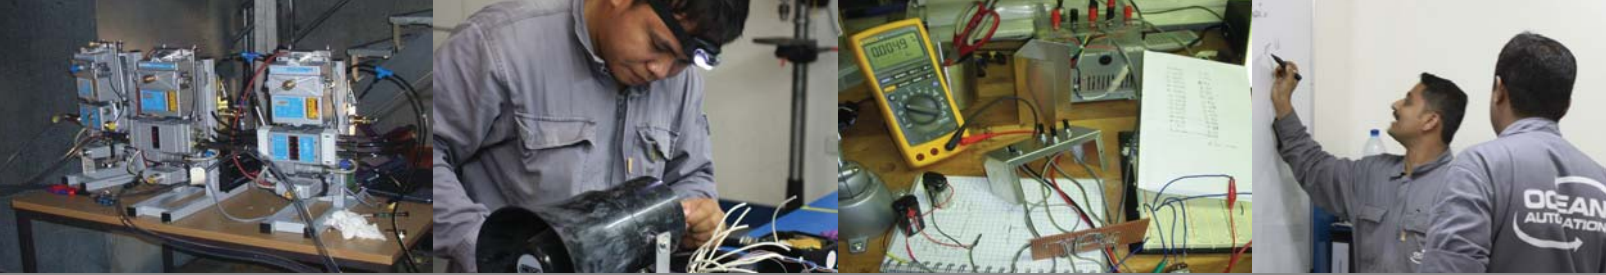

- Valve Positioners, Air Regulators, Actuators
- 15ppm Bilge Alarm Monitors & Oily Water Separators
- Fuel Oil Viscosity Control & Viscotherm Systems
- Oil Discharge Monitoring & Control Systems (ODME)
- Shaft Power & Torque Measuring Systems
- Control Valves & Regulators
- Signal Converters, Power Supplies
- Gas Detection Equipment
- Pressure, Level, Temperature & Flow monitoring Equipment & Systems
- Mechanical Float Level Gauging Systems (Whessoe)
- Engine Oil Mist Detection Equipment
- Vibration & Displacement Monitoring Systems

COMMISSIONING SERVICES

Ocean Automation Solutions supply technical manpower including engineers and technicians to the offshore and oil & gas industries for new start-up and commissioning services and ongoing maintenance. The technical manpower are skilled in the areas of process instrumentation, electrical, electronic, mechanical, hydraulics and inspection services.

PROJECT MANAGEMENT

Ocean Automation Solutions carry out projects for our customers including engineering design, equipment design, procurement, system configuration, control panel manufacturer, site installation, testing and commissioning. We schedule and plan the contracted projects to suit our customers requirements.

DESIGN & ENGINEERING SERVICES

Our engineers design systems and techniques to improve the operation and efficiency of our customers plants and facilities. Our team utilise the latest computer aided design, drafting and system development tools.

Your Automation Solutions Provider

FACILITIES

Our companies operate out of fully equipped factories in Dubai, United Arab Emirates and Jurong, Singapore. Both facilities incorporate the following aspects:-

OFFICES

We maintain air conditioned office space for our administration, management and design activities. We utilise modern technology to assist in all aspects of the business.

STORES

We carry extensive stocks of process instrumentation, automation equipment and spare parts (including items from the product lines of our principals). We supply these items to our customers either as a direct trading activity or as part of other products and services offered to our customers.

WORKSHOPS

We maintain fully equipped workshops for the service and repair of pneumatic, electronic and electrical instrumentation and automation items. We also maintain test and calibration equipment traceable to national standards. Our control panel manufacturing and assembly area is utilised to design, build and commission turn-key control panels and systems for our customers.

SUMMARY

OCEAN AUTOMATION SOLUTIONS strives to be a trusted partner for our customers as well as a recognised and reliable Automation Solutions & Equipment provider in the Middle East and Far East.
