

OCEAN AUTOMATION SOLUTIONS LLC

OCEAN AUTOMATION SOLUTIONS LLC were established in April 2008. We are engineering, control and instrumentation specialists. We currently have 80 staff and we are involved in the design, service, sale, trading, supply, repair, maintenance and upgrade of instrumentation and process control systems. We service a wide range of industries including the marine, offshore, power, utilities, petrochemical, storage and processing industries. We aim to provide a world-class service to our customers, supply quality products and services and maintain a disciplined and well trained multi-national workforce

As a basic overview of the company, please find below details of its shareholders. The parent company of Ocean Automation Solutions LLC, Ocean Automation International Limited has 5 shareholders as follows:-

Global Process Systems (GPS) is a global provider of technology based "design & build" process facilities solutions for the upstream oil & gas industry.

Mr. Richard Edward (Dick) Willenbrock has over 40 years of experience in the Automation sector of the marine and oil & gas industries. He was, until 2007 the Chairman of the Total Automation Group and was indeed one of the founders of Total Automation in 1987. Prior to this he served as Managing Director of Haven Automation in Singapore for 15 years.

Mr. Stuart Holden is the Director/General Manager of Ocean Automation Solutions (LLC) based in Dubai. He has over 18 years experience in the Automation sector. He was, until March 2008 the General Manger of Total Automation Middle East (LLC) in Dubai, having served over 11 years with that company.

ArabCapital is an active participant in ship finance and corporate advisory assignments in the Middle East region. They are represented on the OAS board by their Managing Director, Mr. Marcus Machin who has senior shipping and project financing banking experience in London and Switzerland and who has been based in Dubai for the last 12 years.

Mr. David Gouverneur is the Director/Service Manager of Ocean Automation Solutions (LLC) based in Dubai. He has over 13 years experience in the Automation sector. He was, until March 2008 the Service Manager of Total Automation Middle East (LLC) in Dubai, having served over 6 years with that company.

MARINE AUTOMATION SYSTEMS - SERVICE & REPAIR

We maintain, repair and certify control & instrumentation systems and electrical equipment on any facility that involves process instrumentation. Some of the assignments are planned well in advance however many are instigated by an urgent phone call from our customers who require a repair team to depart immediately along with all test equipment, tools and spare parts. Due to the urgent nature of our business we supply our customers from an extensive inventory of equipment and spare parts held in our stores. Systems that we typically service and repair would include:-

- MMC Portable Tank Gauges
- 15ppm Bilge Alarm Monitors & Oily Water Separators
- Fuel Oil Viscosity Control & Viscotherm Systems
- Oil Discharge Monitoring & Control Systems (ODME)
- Shaft Power & Torque Measuring Systems
- Control Valves & Regulators
- Flowmeters
- Fixed Gas Detection Systems and Portable Gas Detectors
- Pressure, Level, Temperature & Flow monitoring Equipment & Systems
- Mechanical / Electrical / Electro-Pneumatic Tank Level Gauging Systems (Whessoe, Musasino, Nakakita, etc)
- Engine Oil Mist Detection Systems (Graviner, Schaller, etc)
- Vibration & Displacement Monitoring Systems
- Fire Alarm Systems
- Pneumatic & Electronic Transmitters, Controllers, Recorders, Valve Positioners
- Solenoid Valves, Control Valves, Actuators
- Explosion Proof / ATEX and Intrinsically Safe equipment and Isolators
- Water Ingress Detection Systems and De-Watering Systems
- Digital and Analog Alarm Annunciators, and Custom Alarm Panels
- Control Panel Design/Engineering and Supply
- Main Engine Pneumatic Control Systems
- Circuit Breakers and Electrical Control Equipment / Switchgear
- Cargo Pump Bearing Temperature Monitoring Systems
- Pump Room Automatic Unloading System
- Engine Room Alarm Systems
- Tank Systems Hermetic UTI Portable Tank Gauging Units
- Torque Wrenches, Micrometers, Multimeters, etc

SPARE PARTS AND STORES

We stock, supply and trade instrumentation, control and measurement equipment. We also act as local agents and distributors for well respected names in the process instrumentation and automation business such as CMR Group (France), Rivertrace Engineering (UK) and Power Genex (Korea), and carry extensive stocks of equipment and spare parts from our principal's product lines. We stock equipment and spare parts for various systems including:-

- Valve Positioners, Air Regulators, Actuators
- 15ppm Bilge Alarm Monitors & Oily Water Separators
- Fuel Oil Viscosity Control & Viscotherm Systems
- Oil Discharge Monitoring & Control Systems (ODME)
- Control Valves & Regulators
- Signal Converters, Power Supplies
- Gas Detection Equipment
- Pressure, Level, Temperature & Flow monitoring Equipment
- Mechanical Float Level Gauging Systems (Whessoe)
- Engine Oil Mist Detection Equipment

COMMISSIONING SERVICES

We supply technical manpower including engineers and technicians to the offshore and oil & gas industries for new start-up and commissioning services and ongoing maintenance of Drilling/Production Platforms, FPSO's, FSO's, FSU's and FSRU's. The technical manpower are skilled in the areas of process instrumentation, electrical, electronic, telecoms, mechanical, hydraulics and inspection services. We are rapidly gaining a reputation for supplying high quality personnel. We are able to supply personnel at short notice, fully equipped with the required PPE, tools and test equipment. All personnel are from our pool for experienced commissioning manpower.

DESIGN & ENGINEERING SERVICES

This department designs systems and techniques to improve the operation and efficiency of our customers plants and facilities. Our Engineers and Designers utilise the latest computer aided design, drafting and system develop-

SUMMARY

OCEAN AUTOMATION SOLUTIONS LLC strives to be a trusted partner for our customers as well as a recognised and reliable Automation Solutions & Equipment provider in the region.
