An innovative Integrated Alarm, Control and Monitoring System (IACMS) for a dedicated application: Yours.

Standard Features:

- Integrated Alarm, Control and Monitoring System
  - The CMR900 is reliable and competitive technology under development the last 15 years, demonstrating experience on various yacht applications. CMR900 is the best compromise between last high-tech updates, value engineering and competent production. CMR ensures design, engineering, production and software development of this system.
  - CMR is the first choice for turnkey supply of products and systems designed to your high-level expectations.

This IACMS will handle all the functions related to Alarm, Control and Monitoring for the following ship systems:

- Main Engines
- Propulsion and Steering Systems
- Gas oil Tanks / Fresh Water Tanks / Black & Grey Water Tanks
- Navigation and Ancillary Lighting
- Bilge sensors and Flood Detection System
- Air Conditioning and Fresh Water Plant Units

All CMR equipment and systems are fully type approved by Major Classification Societies and we maintain numerous references with Yachts owners, operators, shipyards and brokers. CMR facilities are strategically located to best serve the needs of Yacht owners and Shipyards. These shore bases for our Field Service Teams are able to provide Your Yacht the assistance and the service you deserve in board. CMR headquarters, located in Marseille, France, is ideally suited to serve the market within the Riviera.

Optional:

- AUT-UMS Class notation acceptance including Alarm Report Panels for Cabins and Mess room, Dead Man System and 'Engineer on duty' Management.
- Power Management System including auto-synchronisation of the generators, shore connection management and anti blackout system.
- Entertainment Systems: CMR can handle the Control thru workstations of the Audio/Video/Lighting systems on board.
